Dr. Andrew Crellin
328 Cowesett Ave.
West Warwick, RI 02893

Dear Dr. Crellin;

I am writing this letter regarding my treatment from having used the Spine-Med therapy table

As you know, I suffered an injury to my lower back about 15 years ago from a fall and was diagnosed with 2 herniated discs. I had success with an injection I received back then that lasted approximately 10 years. However, over the last 5 years my pain not only returned, but had increased as well as intensified.

I have gone through numerous types of injections which required hospital stays, and these injections worked for short amounts of time. Then....I came to you. You had recommended that I try the Spine-Med Therapy.

I can honestly say that since having gone through the treatments, I have not felt this good in years! I would highly recommend this to anyone who has chronic back/neck problems. It is a noninvasive therapy that simply allows you to relax and the table does all the work. (Who bad can that be??)

It's been a few months now since I have ended my therapy and I am still pain free! So in conclusion I would just like to say THANK YOU!

I hope that all your patients have as much success as I have!

Sincerely,

Kim Craig
